Summary

Software Developer and Product Engineer with 4+ years of professional software development experience, specialising in Angular, TypeScript, JavaScript, HTML, CSS and REST API integration. Currently a Product Engineer at Absa, contributing to enterprise-grade web applications within an Agile banking environment.

Experienced across the software development lifecycle, including frontend development, API integration, database development, troubleshooting, version control, technical collaboration and Agile delivery. Previous full-stack experience includes Node.js, Express.js, PostgreSQL and MongoDB.

Strong foundation in software development, system analysis and design, databases, distributed computing and data structures, supported by an Advanced Diploma and National Diploma in Information Technology from Tshwane University of Technology.

Core Competencies

- Angular & TypeScript Development
- Enterprise Web Application Development
- REST API Integration
- Frontend Architecture
- Responsive Web Development
- JavaScript, HTML & CSS
- Node.js & Express.js
- PostgreSQL & MongoDB
- Git & Version Control
- Jira & Agile Delivery
- API Testing with Postman
- System Analysis & Design
- Database Design
- UI/UX Collaboration
- Problem Solving & Troubleshooting

Experience

Product Engineer

Absa Group

Dec 2022 - Present (4 years)

- Develop and maintain Angular-based enterprise web applications within a large-scale banking environment
- Build and enhance frontend functionality using Angular, TypeScript, HTML and CSS
- Contribute to the delivery and maintenance of user-facing application features across business-critical workflows
- Investigate and resolve frontend issues, defects and application problems

- Improve application usability, responsiveness and overall frontend quality
- Work collaboratively with developers, product stakeholders and other technology teams within Agile delivery processes
- Use Git for version control and collaborative software development
- Manage development tasks, defects and delivery activities through Jira

Junior Developer

Absa Group

Jun 2022 - Nov 2022 (6 months)

- Developed and maintained Angular-based web applications using TypeScript, HTML and CSS
- Implemented frontend features and fixes within an Agile development environment
- Collaborated with development team members through Git-based workflows
- Managed development tasks and issues using Jira
- Supported the delivery and maintenance of enterprise banking applications

Full-stack Developer

The Digital Academy

Dec 2021 - May 2022 (6 months)

- Developed responsive frontend applications using Angular, Ionic, HTML, CSS, and TypeScript
- Built backend services and RESTful APIs using Node.js and Express.js
- Tested and validated APIs using Postman and Thunder Client to ensure reliability
- Designed and managed databases using PostgreSQL (pgAdmin) and MongoDB (Mongoose)
- Created wireframes and UI designs using Figma to improve user experience
- Produced UML diagrams using Draw.io to support system design and documentation
- Managed tasks and tracked progress using Trello and GitLab Issues in Agile workflows
- Collaborated with team members using GitLab and GitHub for version control
- Participated in daily stand-up meetings to align with team goals and sprint progress

Stockroom Merchandiser

JAM Clothing SA

May 2016 - Jan 2018 (1 year 9 months)

- Received and processed incoming deliveries, ensuring accuracy against orders
- Captured and updated stock information in the system with high attention to detail
- Checked consignments for discrepancies and ensured proper inventory control

Store Associate

JAM Clothing SA

Dec 2014 - May 2016 (1 year 6 months)

- Packed and organized stock efficiently to maintain store presentation standards
- Merchandised products to enhance visual appeal and drive sales
- Delivered excellent customer service, assisting customers with product selection and inquiries
- Handled cashier duties, including processing transactions accurately and managing payments

Education

Tshwane University of Technology

Advanced Diploma in Computer Science, Information Technology

Jan 2024 - Present

- Data Structures and Algorithms
- Introduction to Data Science
- Human Computer Interaction
- Distributed Computing
- Service Oriented Programming
- Theory of computation

SpecCon Holdings (Pty) Ltd

Higher Certificate in System Support, Information Technology

Dec 2021 - Nov 2022

- Network administration, including setup, configuration and troubleshooting network devices
- Installing, Configuring, and Maintenance of Hardware and Software Systems
- Understanding Operating Systems, including installation, configuration, and management

Tshwane University of Technology

National Diploma in Software Development, Information Technology

Jan 2018 - Aug 2021

- Database Design and Implementation
- System Analysis and Design
- C++ procedural and Object-Oriented programming
- Linux bash
- CompTIA A+
- Cisco Networking
- Project Management
- Information System
- Oracle SQL & PL/SQL
- Computer Literacy
- Computer Fundamentals

Licenses & Certifications

CCNA: Introduction to Networks - Cisco

The Complete Java Developer Course - Mastering Java from Zero - Udemy

Complete Introduction to Business Data Analysis - Udemy

Credential ID: UC-fb952488-77bf-497c-9c92-cbd7c42a20bc

Build Responsive Real-World Websites with HTML and CSS - Udemy

Credential ID: UC-d232bdeb-9423-42d9-9cfd-7f2aebce1267

Technical Skills

Frontend:

Angular, TypeScript, JavaScript, HTML5, CSS3, Ionic

Backend & APIs:

Node.js, Express.js, REST APIs

Databases:

PostgreSQL, MongoDB, Oracle SQL

Development Tools:

Git, GitHub, GitLab, Bitbucket, Jira, Confluence, Postman, Thunder Client

Design & Documentation:

Figma, Draw.io, UML

Development Practices:

Agile, Scrum, Version Control, API Integration, Software Development Lifecycle, Troubleshooting
